Agenda: There will be a brief FDA presentation on the least burdensome provisions of the FDA Modernization Act of 1997. Subsequently, the committee is being asked to provide input to the agency regarding the design of clinical trials for the following: (1) Devices using spinal cord stimulation in the treatment of angina pectoris; (2) rate-responsive pacemakers, specifically, the evaluation of rate-adaptive features; and (3) devices used in the treatment of atrial fibrillation. Background information, questions for the panel, and a bibliography for each topic to be discussed by the committee are available to the public on the Internet at <http://www.fda.gov/cdrh/upadvmgt.html>.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. FDA regrets that it was unable to publish this notice 15 days prior to the April 4, 2000, Circulatory System Devices Panel of the Medical Device Advisory Committee meeting. Because the agency believes there is some urgency to bring these issues to public discussion and qualified members of the Circulatory System Devices Panel were

available at this time, the Commissioner of Food and Drugs concluded that it was in the public interest to hold this meeting even if there was not sufficient time for the customary 15-day public notice.

Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. app. 2).

Dated: March 20, 2000.

Linda A. Suydam,

Senior Associate Commissioner.
